And the Sixteen to One Free Coinage of Silver by Old-Line Sound-Money Democrais-They Believe Such a Policy, If Adopted, Would Involve the Business of the Country in General Disaster.

BURLINGTON, Ia., June 11.-A bolt against Boies and free silver, which has been maturing here among the sound money democrats, was sprung yesterday. President Baldwin, of the St. Louis, Keökuk & Northwestern railroad and Senator T. G. Harper, Cashier J. J. Fleming of the State bank, and several other prominent members of the democratic party in southeastern-lown, are the originators

It is said the pledge which is being circulated and signed on all sides really means a bolt of the entire democratic ticket. It is to be worked all over Iowa immediately, and then spread to other states. The pledge reads:

"The undersigned democrats hereby form an association to be known as the Democratic Sound Money club. We pledge ourselves that at the coming general election we will not vote for any candidate for president or member of congress who is not known to be opposed to the free and unlimited coinage of silver at the ratio of 16 to 1 under the present conditions, and regardless of the commercial value of silver.

Such a silver policy, adopted, would reduce our currency at once to the single silver standard and involve the business of the country in general disaster. No party considerations whatever can induce us to support it."

## MARYLAND DEMOCRATS

#### Adopt a Platform with a Gold Standard Plank In It.

BALTIMORE, Md., June 11 -The Democratic state convention was called to order shortly after noon in Ford's opera house by Hattersley W. Talbott, chairman of the State central committee. He said only a few words before introducing Hon. Arthur P. Gorman as temporary chairman.

The senator spoke briefly. He inveighed against McKinley and his protection ideas. He urged the democrats to harmonize their differences and conciuded his short address with the statement that the convention should select delegates to the national convention with a view of keeping the financial standing of the state at a high standard. This sentiment was interpreted to be in favor of the sound money men, and they applauded it, while the white metal men looked dis-

gusted. The chairman of the committee on resolutions reported in favor of tariff reform, as enunciated in the platform in Chicago in 1892, and indorsed President Cleveland. In relation to the financial question the report favored the gold standard and opposed the free coinnge of silver at 16 to L.

substitute for the financial plank of the majority report, and was rejected. The financial plank of the platform as adopted is as follows:

A minority report was offered as a

"Believing that the true interests of the people require that the earnings of agriculture and trade and the wages of labor should be paid intact in noney that is intrinsically worth in all the markets of the world what it purports to be worth, we demand the maintenance of the existing gold standard of value, and further, that the government shall keep all its obligations at all times redeemable and payable in money of the greatest intrinsic value and of the highest standard adopted by the civilized nations of the world, and we therefore resolutely oppose the free and unlimited coinage of silver at the ratio of 16 to 1."

# A DRUNKEN BRUTE

### Shoots His Two Step-Daughters for Refusing to go for Beer for Him.

Cmcago, June 11.-William Otter, of were sitting his two step-daughters and their mother. He asked the eldest girl, who is 17 years old, to go after a can of beer for him. This she refused to do, and the father became enraged and drawing a revolver began a promiscuous shooting. The older girl was hit in the breast and the younger one, aged seven, received a bullet in the abdomen. Mrs. Otter was not struck. Both girls were sent to the hospital, where it is said the young lady will recover, but that the little girl will

# UNDERBID THE BRITISHERS.

## An Alabama Concern to Supply Italian Steel Makers With Pig Iron.

BIRMINGHAM, Ala., June 11.-One of the most important deals in pig iron Britain. Hay and pasture injury is reever made here was closed Tuesday when the Tennessee Coal, Iron & Railroad Co., the most extensive producers in the south, concluded negotiations and Bulgaria, and exceptionally good with an Italian steelmaking concern in Germany and Russia, at Genoa, Italy, to supply them annually for a term of years with 50,000 ton; of Alabama pig. The sale was made in competition with English ironmakers, who have heretofore been supplying the Genoa parties, the Alabama company being able to underbid the British makers.

sented to the President. Washington, June 11.-The petition victed for his connection with a filibers of the senate and house, irhighly of Capt. Wiborg's character.

## CROP CONDITIONS.

Summary of Reports Received by the Agricultural Department Showing the Condition and Prospects of Cotton and Wheat Crops, and Incidentally, that of

Other Small Grains. WASHINGTON, June 11.-The consolidated return of cotton reports to the statistical division of the department of agriculture for the month shows the state percentages of acreage as com-

pared with last	year to b	e as follow
Virginia	.107 Texas	
North Carolina	117 Arkuns	35
		see
		Territory 1
		thoras and
Mississippl	.114 Oklahot	ma
Lambstatin	103	

The general average is 116.2, being 1.33 increase over the May statement.

Ì	North Carolina South Carolina Seorgia	56 34 5	Arkansas 10 Tennessee 11
1	Florida Aiabama Mississippi	104	General average97.

In the Atlantic states, in spite of the dry weather in early spring, the crop is a little earlier than usual. Poor stands, on account of drought, are reported from two counties in North and South Carolina and seven counties in Georgia. But the crops are in fine condition as respects both cultivation and greeth throughout this region. In Florida the crop is late and stands are poor on account of the excessive drought. In Alabama, Mississippi, Louisiana, Arkansas, Tennessee and Indian territory the crop is not very early but stands are good and outlook promising for a full crop. In a few localities, however, there are reports of damage by worms and lice.

In Texas the conditions have been less favorable than in the Atlantic and gulf states. The cold and damp weather at seeding time not only makes crops late, but has resulted in infesting many fields in a large area in the southwestern part of the state with all manner of insects, doing damage to the plant. A considerable improvement, however, has been made within the past month. First plantings seem to be doing much better than late ones. In many heavy producing counties the stands are good and give a close approximation to full crops.

#### Acreage of Wheat and Percentages of Areas Harvested.

Washington, June 11,-The acreage of wheat and percentages of areas harvested last year have been obtained from a greatly enlarged list of correspondents, inquiries being addressed in particular to 15,000 of the principal millers throughout the country, to whose careful comparison of present acreage with that of previous years many corrections of the preliminary estimate of December last are due. There has been some diminution of winter area, owing to the total failure Important Discovery in a Mound Near of the crop in some sections, the ground being plowed up for spring wheat or oats.

## **APPROPRIATIONS**

Provided for by the Session of Congress Just Closed—Heavy Increase of the Pub-lic Debt, and Consequent Additions to the Annual Interest Charge—The Treasary as Left by the Harrison Adminis tration-Mr. Sayers' Statement.

WASHINGTON, June 11 .- Mr. Cannon, republican, of Illinois, chairman of the committee on appropriations, submitted to the house to-day the usual statement regarding the appropriations made at the session of congress just ended. He said:

"The appropriations for the session just closed amount to \$515,759,820.49. This includes \$119,054,160 under permanent laws, of which amount \$50,-000,000 is for sinking fund and \$40,-500,000 for interest on the pub-The average condition of the crop for lie debt, or \$3,355,614 more than was included in the statements of appropriations, and is on account of an increase of \$162,315,400 in the bonded indebtedness of the present administration up to February, 1895, the interest and sinking fund charge on account of the later bond issue of \$100,-000,000 in February, 1896, amounting to \$4,400,000, not being included.

"The excess of expenditures, \$112,-608,483,76, over revenues for the first two years of Mr. Cleveland's present administration, together with the excess of expenses over receipts of \$26,-504,984.04 for the first 11 months of the present fiscal year, 1896, has been met out of moneys derived from the sale of bonds.

"When Mr. Harrison retired from the White House on March 4, 1893, there was a net cash balance in the treasury of \$124,128,087,88. On June 1 of this year, but for moneys derived from the sale of bonds, there existed an actual deficiency in the treasury of \$26,261,062,27."

Mr. Sayers (dem., Tex.), the representative of the minority on the appropriation committee, also presented a statement. He said:

"If the present congress had rigidly refused authority for additional contracts, and had appropriated only to meet the immediate fiscal year's requirements, the next congress and administration would have been in a position to largely reduce appropriations and expenditures, and the administration of the government could easily have been turned to an economical method of governmental expenditure. This, however, has not been done, and the majority in congress must be held responsible for this grave dereliction in public duty.

The appropriations made by the past three congresses and at the present session follows: Fifty-first congress, both sessions \$1,005,680,109; fifty-second, both sessions, \$1,027,104,547; fiftythird, three sessions, 8989,239,205; fiftyfourth, first session \$515,759,820.

## THE UNION LEAGUE

Of the Greatest Republican City of the Country to the Republican Convention Suggests Doctrines and Principles that Should be Embodied in the Platforn and Carried Out by the Party if Suc. cessful at the Polls.

PHILADELPHIA, June 12.—The Union league, through a committee appointed for the purpose, vesterday afternoon adopted the following address: To the National Concention of the Repub-

lican Party: The Union league of Philadelphia, the representative republican organization of the greatest republican city of the country, respectfully submits for your consideration that the present hindrances to the prosperity of the

country are: First-Uncertainty as to the maintenance of the existing gold standard

of value. Second-That deficiency of government revenues which has compelled an increase of the national debt in order to defray the necessary expenses of the administration.

Third-The departure of the Wilson bill from that policy of protection to American labor to which this country owes that unparalleled prosperity which it enjoyed during the years previous to 1894.

Considerations of public interest and political expediency dictate the adoption of a platform which shall declare with absolute clearness that the republican party adheres to the policy of protection and recigovernment an adequate revenue; opposes the free coinage of silver, and insists upon the maintenance of the existing gold standard of value. Nothing short of these explicit and positive declarations will assure the people that the republican party, when again intrusted with the responsibility of administration, will resist any debasement of the standard of value; will protect the wages of American labor, and will restore national and in-

lividual prosperity. [Signed.] JAMES V. CARLLES Chairman of Committee.

# Secretary. ALLISON MAY STEP ASIDE

## If John H. Gear is Given a Show for Second Place.

DES MOINES, Ia., June 12.-A story is told upon apparently trustworthy authority that the lowa delegation to St. Louis will follow the lead of Manley in admitting the nomination of McKinley on the first ballot, and go further than the Maine leaders and not allow Allison's name to be presented to the convention. In this case it is said efforts will be made to secure the nomination for the vice-presidency for John H. Gear. Ten days ago the lowa delegation had about concluded to advise Allison to withdraw from the race, but friends of Allison in Washington objected. Now the story goes that Allison realizes that McKinley is bound to win and desires to help the republicans of Iowa out by permitting them to climb into the band wagon without delay. The withdrawal of prospects for Gear's nomination brighten.

# A SPECIMEN PLANK

#### That Has Been Cut and Fitted to Insert in the Platform.

Sr. Louis, June 12.-Following is a specimen financial plank that will be, at the proper time, offered for insertion in the republican platform:

"We believe that our money should not be inferior to the money of the most enlightened nations of the earth, and we are unalterably opposed to every scheme that threatens to debase or depreciate our present monetary standard. We favor the reasonable use of silver as currency, but such use should be to the extent only and under such well-defined regulations that its easily and efficiently maintained. As consistent bimetallists, we are opposed to the independent free coinage fraught with certain disaster to all The doctors were taken on a special commercial interests, destructive to in the absence of international agreement sure to lead to silver mono

# A DISA GREEABLE SURPRISE

#### Mr. Reed's Friends Cannot Understand Why Manley Flunked.

ROCKLAND, Me., June 12.-Hon, C. E. ## AN IMPORTANT MOVE

Meeting of the Executive Committee of the National Association of Manufac-turers—The Membership and Scope of Work of the Association-Seeking Federal Aid and Studying Foreign Methods.

CHICAGO, June 13.-The executive committee of the National Association of Manufacturers met at the Auditorium annex yesterday. There were present: Theo C. Search, of Philadelphia, president; E. P. Wilson, Cincinnati, secretary; Warner Miller, New York; C. C. Mitchell, Chattanooga; John B. Howarth, Detroit; Charles E. Lock, New York; Edward H. Sanborn, Philadelphia; Franklin Fish, South Bend; Thomas P. Egan, Cincinnati; John B. Kirk, Chicago, and Robert Laidlow, treasurer.

In calling the meeting to order Pres-

ident Search said:

"The work of the last four months has greatly broadened the membership, and nearly every manufacturing industry of importance now has representation in the association. Suspicions of political purposes have done great injury to the association. Our business motives and business methods have impressed themselves on the business men, and it is now pretty generally understood that the assocition is essentially and wholly a business affair."

The president said he regarded the bureau of publicity recently established in Philadelphia under the direction of Edward H. Sanborn, one of the most important acts of the executive procity; demands the enactment committee. Much good had also been of laws which will give to the accomplished at Washington in consular reforms. The senate committee on commerce had in charge the plan of the association to create a federal department of commerce, and an influential committee of eastern men had its promotion in their permanent keep-

The president reported that the committee had sent a committee of manufacturers to Mexico and Robert P. Porter who had recently returned from a tour of Japan in the association's interests, would soon have his report ready for publication. The report of the Mexico committee

would also soon be ready. A representative had been sent to Denmark to study the commercial conditions there.

The establishment of commercial agencies in foreign countries was recommended and the president aunounced a committee of six to attend to the matter.

July 1 30 prominent manufacturers in nearly every department of trade will leave in a body for South America. The association has obtained concessions from several of the republics there for permanent warehousing and exhibition of American manufactures.

The president reported valuable work on behalf of reciprocity and the restoration of commercial treaties, which were in charge of a special committee.

# CAPITAL COMMENT

On the Report that Gen. Lee Will Not be Permitted to Visit American Prisoners in Cuba.

New York, June 13 .- A Herald special from Washington says:

State department officials are slow to believe the report that Capt.-Gen. Weyler has any intention of prevent ing Consul-General Lee from visiting American prisoners in Cuba. Any action by the enpinin-general having this in view would call forth a strong pro- every year.

test to the Spanish government. The right of representatives of this government to visit Americans in prison has never been questioned, and the administration would not permit infringment of it, especially in Cuba. The frequent capture of Americans and their imprisonment there especially require the services of consular officers, and the necessity of the latter talking with their countrymen.

The authorities say that if any Americans are in confinement in Morro eastle, or any other place, held by the Spanish troops, Consul-General Lee has the right to visit them, and Spain will not be permitted to controvert it.

## A PLAUSIBLE SCHEME For the Introduction of American Goods

## Into Venezuela. WASHINGTON, June 13 .- E. H. Plu-

macher, United States consul at Maracaibo, reports to the state department that the government of Venezuela has made contracts with Wm. Harper, representing the Philadelphia museums and American Manufacturing association, for the establishment of a permanent exhibition of American goods in Caracas, with their own building and other permanent exhibitions in Valencia, Cuidad, Bolivar and Maracaibo. The purpose of the exhibition is to give the Venezuelans an opportunity to formally inspect and compare our goods with those of the old world. Mr. Plumacher says that Germany, England and South America France overrun with commercial traveling agents, mostly energetic young men, well versed in the Spanish language and the customs of South American people. A commercial traveler for an American house is seldom seen. Mr. Plumacher thinks the permanent exhibitions will help American trade without the great expense attending send-
